PRODUCT DESIGNER (UIUX)

zoe-lo.com (password: zoe2024)

UX/UI professional with 3+ years of experience bridging design and development to create user-centered digital products, especially in healthcare and tech. Known for being an active listener who provides thoughtful, actionable feedback to support team alignment and elevate design outcomes.

EXPERIENCE

UX Engineer

Flikshop in Washington, DC

Jul 2024 - Present

- Bridged design and development by using **Figma Dev Mode** to ensure alignment between mockups and implementation, reducing front-end QA revisions by 24%
- Collaborated cross-functionally in **Jira** and design reviews to deliver actionable UX insights, improving communication and accelerating development cycles
- Developed front-end interfaces using **Angular** and supported **iOS app development**, translating UX decisions into responsive, production-ready code

UIUX Designer & Developer

Cheng Hsin General Hospital in Taipei, Taiwan

Sep 2018 - May 2021

- Boosted healthcare worker productivity by 20% by developing responsive, user-friendly interfaces across devices and optimizing workflows
- Built a **multi-language website** using **.NET**, leading to a 24% increase in international patient acquisition
- Conducted user research with stakeholders from 80+ hospital divisions, defining requirements and creating a **standardized website template** for consistent branding and structure
- Improved accessibility and discoverability by applying **SEO best practices** and analyzing traffic with **Google Analytics**, growing site visits to 150K+ monthly users
- Developed interactive **Power BI dashboards** to visualize and monitor hospital employee and division performance, enabling data-driven decision-making and operational improvements

EDUCATION

MS in Human-Computer Interaction

University of Maryland, College Park

Aug 2022 - May 2024

- Delivered front-end solutions as a freelance **UI Engineer** on 10+ customer-facing websites, enhancing usability and visual appeal across diverse industries
- Led weekly lab sessions and held office hours for **Database Design**, supporting 50+ students in mastering complex SQL queries and database normalization techniques

BFA in New Media Art

Taipei National University of the Arts

Sep 2014 - Jun 2018
